STYLE SUMMARY

The MVP Small Cap Core strategy uses a fundamental, bottom-up approach designed to identify underpriced securities with a strong potential for long-term appreciation. The investment process starts with a deep fundamental analysis of the universe by our sector specialists who then evaluate projected levels of cash flow return on investment to identify those stocks that provide the highest potential appreciation. The portfolio is then constructed using the most attractive stocks by sector with a focus on risk management strategies.

The portfolio is diversified across all major economic sectors while maintaining sector exposure limits within 10% of the benchmark. Maximum individual position size is limited to no more than 5% of the total portfolio by market value. The strategy seeks long-term growth of capital. Prior returns reflect the performance of Missouri Valley Partners, Inc. where the composite began on October 1, 2000. The highest applicable management fee is 1.00%. Fees are calculated separately for each portfolio, and therefore, performance may differ from one portfolio to another. The fee schedule is: 1.00% on the first \$10 million and 0.90% on all additional assets.
